JHS New Resident Library Orientation 2020

June 18, 2020
Calder Medical Library
Educational Objectives

By the end of this activity, participants will learn how to:

1. Use Calder Library website to find relevant resources and library services.
2. Get remote access to resources.
3. Explore clinical decision support databases.
5. Find electronic resources quickly with uSearch.
6. Find authoritative clinical information sources in the practice of medicine to improve patient care and outcomes.
7. Explore other useful Library Resources.
Welcome, Residents!
We bring you the Calder Medical Library

Located directly across from the Rosenstiel Medical Sciences Building, next to the Bascom Palmer Eye Institute...
Just look for the Starbucks logo!!!
Normal Operating Hours

Mondays-Thursdays: 7:30 a.m. - 10:00 p.m.
Fridays: 7:30 a.m. - 10:00 p.m.
Saturdays: 10:00 a.m. - 10:00 p.m.
Sundays: 10:00 a.m. - 10:00 p.m.

Holidays
2020
New Year's Day: Closed Wednesday, January 1
Martin Luther King, Jr. Day: Closed Monday, January 20
Memorial Day: Closed Monday, May 25
Independence Day: Closed Friday, July 3
Labor Day: Closed Monday, September 7
Thanksgiving Holidays: Closed Thursday, November 26 and Friday, November 27
December Holidays: Closed Friday, December 25
Calder Library 1st Floor

• Entrance by badge access only
• Security Guard onsite
• Access Services Desk for assistance
• Computers stations- PC & Macs available
Calder Library 2nd Floor

- Various Study Areas
- Dedicated Mac Lab
Calder Library 3rd Floor

- Designated Quiet Floor
- Electronic Classroom
- History of Medicine Room
The CALDER LIBRARY WEBSITE is the key to ACCESS ALL RESOURCES

http://calder.med.miami.edu
YOUR CANE ID ALLOWS REMOTE ACCESS

Residents must register for remote access
Register your Cane ID at Calder Library

Step 1: Complete application form, located under Forms on the Calder website.
Step 2: Upload image files with the front and back of your employee ID.
Step 3: It will take at least 48 hours to process the registration.

- Access to library resources is automatic on medical campus computers (UM).
- Use CaneID and password for Remote Access.

Renew Remote Access yearly- Online or In person at the library, with UM/Jackson ID.

If you have any issues, please contact Library Services at 305-243-6403.
Remote Access Request Form

Remote access to the Louis Calder Memorial Library’s Licensed Resources (E-journals, E-books and Databases) is restricted to faculty, staff and students at the University of Miami/UHealth/Jackson Health System (JHS). All fields on this form must be completed. Incomplete forms will not be processed.

Applications will not be processed until verification from your residency coordinator is received by the library or copy of a valid UM/JHS photo ID is uploaded.

A Clinical Decision Support System (CDSS) that merges medical images and expert information to help you build a patient-centric differential diagnosis.

Varicella, also known as chickenpox, is a self-limited viral infection caused by varicella-zoster virus (VZV), a member of the Herpesviridae family. Prior to the clinical implementation of the varicella vaccine, more than 99% of adults aged 40 and older had evidence of previous infection. Transmission occurs via airborne respiratory droplets or direct contact with vesicular fluid. The incubation period ranges from 10-20 days.

VZV is an acute, serious viral infection when it occurs in adults. In adults, a 2- to 3-day prodrome of fever, chills, irritability, headache, and myalgias may occur. However, skin lesions are usually the initial manifestation of the disease: an acute eruption of pruritic, erythematous macules and papules that start on the face, oral mucosa, and scalp and spread to the trunk and extremities. The lesions rapidly evolve into 1- to 3-mm vesicles with clear serous fluid on an erythematous background. The hallmark of chickenpox is the presence of lesions in various stages of development. Older lesions will evolve to form pustules and serous crusts that heal within 10 days of time. Fever is variable, usually less than 38.9°C (101.2°F), but can be anywhere from normal to 40.6°C (105°F) in severe cases.

The most common complication is secondary infection of lesions with Staphylococcus or beta-hemolytic Streptococci. The streptococcal infection can progress to necrotizing fasciitis. Varicella pneumonia is rare...

Breast Cancer Survivorship: Where Are We Today?

Patricia A Ganz, Pamela J Goodwin

Affiliations + expand
PMID: 26059925 DOI: 10.1007/978-3-319-16366-6_1

Abstract

Breast cancer is the most common cancer in women, and survivors with this diagnosis account for almost one fourth of the over 14 million cancer survivors in the US. After several decades of basic and clinical trials research, we have learned much about the heterogeneity of breast cancer and have evolved a complex and multidisciplinary treatment approach to the disease. Increasingly, we are paying attention to the long term and late effects of breast cancer treatment, and this is largely the subject of this volume. In this chapter, the authors introduce the topic of breast cancer survivorship and highlight the organization and content of this volume, briefly describing the contents of the subsequent chapters.

DISTINCTIVE COLLECTIONS & RESOURCES

Search for library resources using uSearch, University of Miami’s Integrated Catalog.

Discover materials from all University of Miami Libraries, including Law & Medical.
uSearch Integrated Catalog

uSearch options:
- e-Resources
- Library Catalog
- Everything
Useful for a quick search of Electronic Resources

Enter keywords and click Search
Enter your topic and select from the drop-down list:
* Electronic Resources
* Library Catalog
* Everything
Sign in with Cane ID & Password for Remote Access
Sign in for Remote Access

CaneID and Password will provide remote access to resources & databases
Library Catalog search will find Print Books

Enter topic and select Library Catalog
This will retrieve PRINT BOOKS only.
Books are located on the 3rd floor stacks.
Searching **Everything** will find resources in all UM Libraries.

Delivery of material from other UM Libraries to Calder is available.
Results include electronic resources only, with Online access.
Use Pins to select items from the list.
Use envelop icon to send to your email.
Advanced Search allows you to search for words in the Title (or any field) & apply certain filters (Material Type, Language, and Publication Date)
Learn how to use uSearch with the Help Manual
Finding Specific e-Journals

To find a Specific e-Journal, use the E-Journals A-Z tab, then search for the journal in uSearch.
(1) American Society of Clinical Oncology clinical practice guideline: update on adjuvant endocrine therapy for women with hormone receptor–positive breast cancer. (2)...
American Society of Clinical Oncology - Medical Specialty Society. [1969 12 31]
